Item Gamma-1: TN#013 - Casualties of War

Well Soldiers, we've made it through our first year of combat. There have been some casualties along the way, friends we have lost, enemies we have conquered, but the War rages on.

With that in mind, the theme for our 1st Anniversary will be CASUALTIES OF WAR.

Break out your best army gear and dress your battle wounds. Newly promoted Field Surgeon, Herr Doktor Von Megatron, fresh from doing the rounds at DETOX, will be on hand to help the walking wounded throughout the night. As always, Armor Sergeant Aidan & Gunnery Sergeant Feral will endeavour to provide the best music for your monthly R&R.

We're also looking at getting pictures taken for new flyers, so make sure you look your best, to ensure your chance of making it as part of the TECH NOIR SURVIVAL PROGRAM: CLASS OF 2008.

Item Gamma-2: Sphere Magazine Review

Coinciding with our 1st anniversary celebrations, we are fortunate enough to be a feature in a magazine article. Sphere Magazine will be present at TN#013 taking pictures of regulars for the article and possibly interviewing some of our troops.

Item Gamma-3: Tech Noir Playlists

The playlists for TN #011 and #012 have been uploaded and are available to view [HERE](#).
