ATTEN HUT SOLDIERS!!

2009 starts bigger and better for Tech Noir. Its short notice I know, but this month we're on a week earlier, Friday 9th January. We can make up for this though by offering you the MAIN ROOM in Legends.

So this month we have full lights, UV filters, HUGE sound system, decent smoke machine, good seating, and all the tunes you could ever want. So get your new Xmas fatigues ready, get your UV camouflage on and get those requests in. If this goes well we could see this as a permanent fixture.
